

**The Fairness Commission is an independent commission set up to hear about anything that makes life particularly unfair for people in the city. It also wants to include the views of older people in the city – especially any practical suggestions you have that would make things better for you. Answers will form the basis for the recommendations that will influence the direction of future council priorities.**

**To help with your answers, here are some areas where the council provide services you may have experience of and may wish to comment on.**

Public areas, buildings, toilets	Transport around the city	Housing
Hospitals, health, mental health	Adult Social Care	Security and feeling safe
Communication and Information	Respect and Social Inclusion	Communities and Well being
